#### Chair's overview of the past year:

The year has been both interesting and challenging; recently recruited members have developed and are now proving to be support and inspiration to a committee that has undergone changes in coordinator and the loss of valuable members. Due to current restrictions on recruitment, no new members have yet been appointed.

The recruitment of a replacement expert pharmacist member will expand the scope of referrals, which in turn will prove an interest and challenge to our recent recruits.

Given the reduced membership the committee has functioned well, and I would like to thank the members and coordinators for their hard work and commitment

Training events have been reasonably well supported.

Feedback from the majority of researchers has indicated that they have found the ethical review to be a worthwhile and beneficial process.

An expression of thanks is made to the co-opted members who have supported this committee.

The application statistics indicate that whilst there are issues with quite a number of applications the majority have been resolved effectively and promptly.
