### **Chair's overview of the past year:**

The past year has been another of change and development. We have evolved from the anonymous South East London 3 to NRES Committee London - Dulwich. A number of key retirements and resignations have had their impact – most notably the departure of Dr David Jewitt who retired after 10 years as Chair. He made a tremendous contribution to the committee and supporting other RECs in the area. His will be a hard act for me to follow. In addition, Dr Colin Ball and Professor Nora Donaldson have also left us after excellent work during their tenure. Colin Standfield has joined us as Vice-Chair.

Over the past two years we have lost a number of experts and are relieved that NRES is now (Sept 2012) beginning to recruit replacements.

During the report year we have had at least two coordinators: Juliet Kirk-Buaku left to pursue a teaching career and her successor Alene Pointon (previously at the Ealing REC) took early retirement. We now look forward to a period of stability with our new coordinator, Stephanie Hill with the help of an assistant coordinator.

With regard to activity: there has been a reduction in studies reviewed at full committee and by proportionate review sub-committee. It is disappointing that the proportion of studies and amendments exceeding the time targets has increased. I believe that the succession of coordinators and the increase in their workload, office moves and uncertainty about the future of the service have all played a part.
