Chair's overview of the past year:

The committee is a strong and collegial group, committed to rigorous and constructive review of research. We regularly have at our meetings observers from research support, other RECs, and research groups. A number of new members joined, have integrated well, and make solid contributions to the group, and from their areas of expertise. We are very ably supported by our coordinator Steph Macpherson, whose organisation and attention to detail have been key to the committee managing smooth entry into proportionate review and new review reporting mechanisms.

The committee has been without an alternate vice chair since October 2010, and without a vice chair since January 2011. Ms Sara Owen (Research Coordinator) resigned as vice chair after four years in the position. She remains on the committee. Committee members are ready and willing to fill these posts and I am assured that NRES administration is still working on getting appropriate officers in place. Good function has been possible because of the commitment of committee members, but the lack of officers is not sustainable. We look forward to this being resolved in the near future.
